- Investigative Specialists can also assist with the use of technology. For example, Philadelphia raised its homicide clearance rate from 42% in 2021 to nearly 90% in 2025 in part by using a network of license plate readers. Investigative specialists can track shooters' movements and locate getaway cars
- Baltimore Police Department has hired 80 Investigative Specialists to augment their sworn staff of 2200 officers

FINES & FEES

Ability to Pay Determinations *with Fines & Fees Justice Center*

- Establishes a clear process and criteria for the court to determine a person's ability to pay fees and requires the court to waive or decrease fees according to a person's ability to pay
- Decreases inequity, justice by geography, and imposition of fees on people unable to pay, and thereby decreases administrative burden of attempting to collect fees that were never going to be paid

End Public Defender Fees *with Fines & Fees Justice Center*

- The Sixth Amendment guarantees a right to a public defender. By putting a price on this fundamental right, Minnesota punishes poor people and strips away their constitutional protections
- This bill eliminates public defender fees and waives public defender fee debt
